

Foundation Sets Testimonial

We are a small private school in Southwestern Michigan. As with most private schools, our financial resources are limited. In researching companies to work with in purchasing a refurbished portable for our daycare, Foundations Sets LLC, came highly recommended. I talked with multiple references before proceeding.

Our first task was to visit the plant and meet Kurt Thomas the owner. He made my daycare supervisor and I feel welcome from the first time we met. We went through the actual plant where the portable rooms are built new and reconditioned. After leaving the plant we were excited about the possibility of working with Kurt and his company.

Kurt worked closely with us through every step of the project. We reviewed plans, made adjustments to fit our specific needs, he provided assistance anytime we asked, and was more than flexible to work with us because of limited funds and cash flow. He was flexible in allowing how our church was going to pay for the classroom by setting up a lease to buy program that fit our needs!

The company did a wonderful job of making a used portable look new. Everything we requested was done to our satisfaction all the way down to selecting paint colors for the walls and trim. We were able to customize the portable to meet our specific needs and Foundations Sets LLC delivered. Kurt has also been very good at following through when we initially faced a few small problems. Each time I call he makes arrangements to have someone come to the property to fix the situation to our satisfaction.

I am confident that Kurt and his company can do an excellent job for any customer. His honesty and willingness to look out for the customer's interest is second to none. He has a genuine nature to him that is real and cares about people, not just his company. He always seems to be working toward a win/win situation for both the customer and the company. I would highly recommend you to consider working with Kurt and Foundation Sets LLC, if you are looking for a quality portable classroom.
