To Whom It May Concern:

We have had the good fortune to work with the people at Thomas Classroom and Modulares, LLC on a couple of occasions. The first project involved bringing in 7 temporary classrooms the first year the school was in operation. The second was a much larger project which involved removing the temporary classrooms and replacing them with a 22,000 square foot modular building (included 19 classrooms, offices, rest rooms and maintenance area). This project was completed over a summer vacation and everything was up and ready, including all fire inspections, for the opening of the school in the fall. It has always been a pleasure to work with the people at Thomas, who even had us visit their operation to see how the construction process worked. If you need any further information or would like to visit our site please feel free to contact me at school.

Sincerely,

A handwritten signature in blue ink that reads "Charles E. Meredith".
