April 2012

To whom it may concern,

Charlotte Public Schools worked with Thomas Classrooms and Modulares, LLC in the Spring/Summer of 2010 at Washington Elementary. During that time, (5) portable classrooms were positioned on our site for student and staff instructional spaces.

The benefits of working with Thomas Classrooms and Modulares were immense and extremely worthwhile. They assisted us through the planning process, budget evaluation, coordination with district activities, code compliance (local and State of Michigan), execution of the actual placement of the units on our site, and the eventual turnover of the portable classroom to us as the owner, with all of the certificates of occupancy in a timely manner.

Thomas Classrooms and Modulares simply have the expertise to get the job done for school districts. I offer my complete support and recommend to other school districts that they contact Thomas Classrooms and Modulares for their assistance and guidance when they are in need of portable classrooms. Thomas simply gets the job done and gets the job done right.

Yours Sincerely,

Mark Rosekrans
Associate Superintendent for Operations
Charlotte Public Schools
